Principal’s Report

Student Leadership
At Wodonga Middle Years College we actively encourage students to be involved in leadership activities and students are given many opportunities to do this throughout their time at WMYC. Being a leader develops many skills that students will use throughout their life. Some of these skills are, an ability to work in a team, being able to prioritise tasks, confidence building and the ability to make a difference.

We had a very competitive field of applicants for our student leader positions at the end of last year and we would like to thank all students who applied. Some very difficult decisions had to be made! Already our students leaders have had meetings, running cafes at each campus, running assemblies and organising the swimming sports. Congratulations to the students below for being successful in these positions.
